Community Design Strategy Map

STRATEGIES - ACTIONS | **OBJECTIVES** | **GOALS** | **VISION**

Monitor, Evaluate, and Adapt

Plan for more active corridors and districts

Carry Out Urban Corridors Strategy & Sust. Thurston
- Capitol Boulevard
- Brewery District
- Woodland District

Increase availability of neighborhoods parks and other supports
- Local matching grants

Improve street design
- Build 'complete streets'

Increase extent of trails and pathways

Sustain Safe Routes to School (SRTS) programs
- Continue county-wide efforts

Promote use (Education & Encouragement)

Align development codes

Increase housing density near commercial services and other destinations

Measure: Market trends for housing in walkable environments… e.g., near… transit, trails, etc.

Increase mix of uses near housing

Affordability is increased by proximity of services, etc…

TT Housing Action Team Strategy

Improve Places

Measure: Proportion of new development occurring in location-efficient settings (see key measure to the right)

Measure: Walk Score or similar way to capture local diversity of destinations

So that

Increase convenience & safety of walking, biking and transit

Measure: TBD - measure of neighborhood/park improvement

Measure: Counts of use on current trails and other facilities

Measure: # of transit boardings

Measure: Trends in pedestrian, other non-motorized traffic safety

Improve Connections

Measure: # of new trail miles

Measure: # of new (improved) access points to existing trails

Measure: Completion of sidewalk network or proportion of complete streets

So that

Create safe, convenient and abundant opportunities for physical activity

So that

Residents are encouraged to walk/ bicycle/be active

Measure: TBD – proportion of schools with SRTS program

Residents have support for using active transportation
Being active is a community norm

Measures: Proportion of students within a walkable distance who walk to school/ SRTS Travel Tallies; Commute Trip Reduction mode splits; Vehicle Miles Traveled

Integrate public health and development planning

Measure: TBD

Align Codes with Healthy Development Plans

Measure: Proportion of new development meeting walkable design guidelines

So that

Use of trails and other walkable places increases

Measure: Healthy Youth Survey physical activity data

People are physically active in our daily lives

Key Measures: {Community Indicators}

# of multi-use trail miles

Proportion of new development that is built within ½ mile of an activity center
